Information and Technology

We are pleased to host New York State *Regent Roger Tilles* for an Open Forum

The New York State Regents supervise all educational activities, from pre-k to graduate school, throughout the State.

Regent Tilles will address such questions as:

How well do the 4 teacher certification exams predict teaching excellence and how did the regents select these exams?

What different challenges face K-12 schools in NYC, NYC suburbs and the rest of the state?

Bring your own questions and learn more about educational decision making in NY State.

Thursday, November 5th

12:30 - 2:00 p.m.

Library - The Incubator
