2016 Spring Workshops at the IMC Library (lower level)

Creating SMART Board Interactive Lessons with Notebook 15,
Tuesday, February 2, 2016, 3:45 – 5:00 PM
Enhance content and motivate students with interactive lessons using Notebook software enhanced tools such as *Shout It out*, *Rank Order,* Concept Mapping and Collaborative tools. Create your own lessons or assessments, modify existing resources, and integrate multi-media content. Instruction is modified and tailored as per the needs of the students.

Using SMARTBoard with Children's Literature, Monday, February 8, 2016, 3:45 – 5:00 PM
This workshop will explore combining the use of print materials with digital resources. The one-hour workshop will include hands-on experimentation with the interactive whiteboard, development of a basic SMART Board lesson, and the evaluation of age-appropriate children's literature through the use of websites and databases.

WebQuests, Wednesday, February 17, 2016, 5:15 – 6:30 PM
WebQuests are online inquiry-oriented lesson formats that make an effective use of Internet resources. They have been embraced by educational technologists and teachers world-wide. WebQuests provide a rich, technology-enabled environment for team participation, research, and collaboration. They also extend content knowledge and promote critical thinking activities.

Digital Storytelling, Tuesday, February 23, 2016, 5:15 – 6:30 PM
Digital Storytelling is an extension of traditional storytelling that can be innovatively used by teachers across the K-12 curriculum for individual or collaborative projects and assignments. Using a variety of media such as photos, video, animation, sound and narration students can create stories that are educational or imaginative and fun. The workshop will include a demonstration of select storytelling tools and hands-on experience.

Common Core: Selected Web Resources, Tuesday, March, 15, 2016, 3:45 – 5:00 PM
One important step for teaching in the 21st Century is the understanding and implementation of the Common Core Learning Standards. During this workshop students will be shown a variety of resources and examples which demonstrate the use of these standards.

Selected Resources for Education students: Brainpop, Ebooks, Kanopy, Britannica School Edition.
Monday, March 21, 2016, 3:45 – 5:00 PM
Improve student achievement in traditional classroom settings and beyond by providing high quality content within a comprehensive digital learning platform. Explore selected primary source materials, interactive student resources, and grade-specific research lists, and tailor these materials to meet your needs.
